

Independent auditors' report to the Shareholders of Afghan United Bank

Grant Thornton Afghanistan

House # 116. Sheet # 12 Quall e Falenusari, Kabul. Afghanistan 1: +63.212.202.475 M: +63.789.314.616, www.granthonton.al

Opinion

We have audited the financial statements of Afghan United Bank (the Bank), which comprise the statement of financial position as at December 31, 2017, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Bank as at December 31, 2017, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board of Accountants' Code of Ethics of Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Afghanistan, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key sudit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the year ended December 31, 2017. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We concluded to report following key audit matter.

The provision against non-performing loans and advances as disclosed in note 8,6 of the financial statements amounts to AFN 316.57 million. The management has followed a time-based system-automated provisioning criteria combined with periodic subjective provisioning. For all loans and advances, the identification of impairment event and determination of impairment charge require significant judgment by management, in particular, the timing, quantum, and viability of future cash flows.

In testing the completeness of impairment, we have assessed the impairments for loans we deemed at high risk and reviewed the nature and timing of the sample and assessed the rationale for the quantum and recalculated the impairment charge. Overall, we found management to have implemented appropriate controls in determining the quantum of impairment as per DAB regulations.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. Further auditor's responsibilities are annexed to this report.

Chartonet Accountants and Management Consultants Member firm of Grant Thomas International Ltd.

From the matters communicated with those charged with governance, we determine the matter that was of most significance in the audit of the financial statements of the current period and is, therefore, the key audit matter. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE - Auditor's Responsibilities

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to
 design audit procedures that are appropriate in the circumstances, but not for the
 purpose of expressing an opinion on the effectiveness of the Group's internal
 control.
- Evaluate the appropriateness of accounting policies used and the reasonableness
 of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Chief Financial Officer Chief Executive Officer

1 STATUS AND NATURE OF BUSINESS

Afghan United Bank ("the Bank") is a commercial bank registered and operating in Afghanistan. The registered office of the bank is located at Shahre Naw, Kabul, Afghanistan.

The bank commenced its operations on October 04, 2007 under the license for commercial banking issued by Da Afghanistan bank (DAB) under the law of banking in Afghanistan. It is a full fledge bank principally engaged in the business of commercial banking with a network of 26 branches (2016: 26 branches) including two full fledge Islamic banking branches in different provinces of Afghanistan. The bank also holds license from Afghanistan Investment Support Agency (AISA) bearing license no: D-27284.

The financial statements for the year ended December 31, 2017 (including comparatives) have been approved and authorized for issue by the board of supervisors on 22 March, 2018

2 STATEMENT OF COMPLIANCE

2.1 These financial statements have been prepared in accordance with the requirements of the Law of Banking in Afghanistan, International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as applicable in Afghanistan and directives issued by the Central Bank of Afghanistan (DAB). In case where IFRS requirements differ, the provisions of the law of banking in Afghanistan shall prevail.

2.2 Standards, amendments and IFRIC interpretations to approved accounting standards that are not yet effective

The following standards, amendments and interpretations of approved accounting standards will be effective for accounting periods beginning on or after January 01, 2018:

- Classification and Measurement of Share-based Payment Transactions amendments to IFRS 2 clarify the accounting for certain types of arrangements and are effective for annual periods beginning on or after January 1, 2018. The amendments cover three accounting areas (a) measurement of cash-settled share-based payments; (b) classification of share-based payments settled net of tax withholdings, and (c) accounting for a modification of a share-based payment from cash-settled to equity-settled. The new requirements could affect the classification and/or measurement of these arrangements and potentially the timing and amount of expense recognized for new and outstanding awards. The amendments are not likely to have an impact on Bank's financial statements.
- Annual Improvements to IFRSs 2014-2016 Cycle [Amendments to IAS 28 'Investments in Associates and Joint Ventures'] (effective for annual periods beginning on or after January 1, 2018) clarifies that a venture capital organization and other similar entities may elect to measure investments in associates and joint ventures at fair value through profit or loss, for each associate or joint venture separately at the time of initial recognition of investment. Furthermore, similar election is available to non-investment entity that has an interest in an associate or joint venture that is an investment entity, when applying the equity method, to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries.

GTP

This election is made separately for each investment entity associate or joint venture. The amendments are not likely to have an impact on Bank's financial statements.

- IFRIC 22 'Foreign Currency Transactions and Advance Consideration' (effective for annual periods beginning on or after January 1, 2018) clarifies which date should be used for translation when a foreign currency transaction involves payment or receipt in advance of the item it relates to. The related item is translated using the exchange rate on the date the advance foreign currency is received or paid and the prepayment or deferred income is recognized. The date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) would remain the date on which receipt of payment from advance consideration was recognized. If there are multiple payments or receipts in advance, the entity shall determine a date of the transaction for each payment or receipt of advance consideration. The application of interpretation is not likely to have an impact on Bank's financial statements.
- IFRIC 23 'Uncertainty over Income Tax Treatments' (effective for annual periods beginning on or after January 1, 2018) clarifies the accounting for income tax when there is uncertainty over income tax treatments under IAS 12. The interpretation requires the uncertainty over tax treatment be reflected in the measurement of current and deferred tax. The application of interpretation is not likely to have an impact on Bank's financial statements.
- IFRS 15 'Revenue from contracts with customers' (effective for annual periods beginning on or after July 1, 2018). IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including IAS 18 'Revenue', IAS 11 'Construction Contracts' and IFRIC 13 'Customer Loyalty Programmes'. The Bank is currently in the process of analyzing the potential impact of changes required in revenue recognition policies on adoption of the standard.
- IFRS 9 'Financial Instruments' and amendment -- Prepayment Features with Negative Compensation (effective for annual periods beginning on or after July 1, 2018 and January 1, 2019 respectively). IFRS 9 replaces the existing guidance in IAS 39 'Financial Instruments: Recognition and Measurement'. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39.
- Amendment to IAS 28 'Investments in Associates and Joint Ventures' Long Term Interests in Associates and Joint Ventures (effective for annual period beginning on or after January 1, 2019). The amendment will affect companies that finance such entities with preference shares or with loans for which repayment is not expected in the foreseeable future (referred to as long-term interests or 'LTI'). The amendment and accompanying example state that LTI are in the scope of both IFRS 9 and IAS 28 and explain the annual sequence in which both standards are to be applied. The amendments are not likely to have an impact on Bank's financial statements.

GAR

- Annual Improvements to IFRS Standards 2015–2017 Cycle the improvements address amendments to following approved accounting standards:
- IFRS 3 'Business Combinations' and IFRS 11 'Joint Arrangement' the amendment aims to clarify the accounting treatment when a company increases its interest in a joint operation that meets the definition of a business. A company remeasures its previously held interest in a joint operation when it obtains control of the business. A company does not remeasure its previously held interest in a joint operation when it obtains joint control of the business.
- IAS 12 'Income Taxes' the amendment clarifies that all income tax consequences of dividends (including payments on financial instruments classified as equity) are recognized consistently with the transaction that generates the distributable profits.
- IAS 23 'Borrowing Costs' the amendment clarifies that a company treats as part of general borrowings any borrowing originally made to develop an asset when the asset is ready for its intended use or sale.

The above amendments are effective from annual period beginning on or after January 1, 2018 and are not likely to have an impact on Bank's financial statements.

3 BASIS OF PREPARATION

3.1 Basis of measurement

These financial statements have been prepared on the historical cost basis except for non-banking assets acquired in satisfaction of claims, financial assets carried at fair value and certain fixed assets (including land, building and other assets revalued as disclosed in note 14 to the financial statements).

3.2 Use of critical accounting estimates and judgments

The preparation of financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that effect the application of accounting policies and reported amount of assets, liabilities, income, and expenses. The estimates and underlying assumptions are reviewed on an ongoing basis. Actual results may differ from these estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future period if the revision affects both current and future periods.

The estimates and judgments that have a significant effect on the financial statements are in respect of the following:

970

- a) Note 8.6 Provision against non-performing loans and advances to customers
- b) Note 9 Valuation and depreciation rates for fixed assets
- e) Note 11 Deferred taxation
- d) Note 22 Income taxes
- e) Note 12.2 Other assets

3.2 Functional And Presentation Currency

These financial statements are presented in Afghani (AFS), which is the Bank's functional and presentation currency. Except as otherwise indicated, financial information presented in Afs has been rounded to the nearest thousand.

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted in the preparation of these financial statements are consistent with those of the previous financial year, except for certain standards, which became effective during the year. However, these don't have material effect on the financial statements of the Bank

4.1 Cash and cash equivalents

For the purposes of cash flow statement, cash and cash equivalents comprise of cash and balances with central bank (unrestricted) and current account balances with other bank less overdrawn nostro account.

4.2 Financial assets and liabilities

Recognition, initial measurement and de-recognition

Financial assets and financial liabilities are recognized when the bank becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transactions costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities are described below.

Financial asset are de-recognized when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and all substantial risks and rewards are transferred. A financial liability is de-recognized when it is extinguished, discharged, cancelled or expires.

Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets other than those designated and effective as hedging instruments are classified into the following categories upon initial recognition:

- a) loans and receivables
- b) financial assets at fair value through profit or loss (FVTPL)
- c) held-to-maturity (HTM) investments
- d) available-for-sale (AFS) financial assets

All financial assets except for those at FVTPL are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial assets or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described below.

SAA

Held-to-maturity (HTM) investments

HTM investments are non-derivative financial assets with fixed or determinable payments and fixed maturity other than loans and receivables. Investments are classified as HTM if the bank has the intention and ability to hold them until maturity. This category includes bank holdings of capital notes issued from Da Afghanistan Bank and term placements with other banks

HTM investments are measured subsequently at amortized cost using the effective interest method. If there is objective evidence that the investment is impaired, the financial asset is measured at the present value of estimated future cash flows. Any changes to the carrying amount of the investment, including impairment losses, are recognized in statement of comprehensive income.

Classification and subsequent measurement of financial liabilities

Financial liabilities are measured subsequently at amortized cost using the effective interest method, except for financial liabilities held for trading or designated at FVTPL, that are carried subsequently at fair value with gains or losses recognized in statement of comprehensive income.

4.3 Loans and advances

These are stated net of provisions for non-performing advances and general provisions as required under the law. Provision for non-performing advances is determined in accordance with "Asset Classification and Provisioning Regulation (2017)" issued by DAB and is charged to the statement of comprehensive income. The Bank also maintains general provision in addition to the requirements of the Prudential Regulations on the basis of the management's risk assessment. Advances are charged-off when there are no realistic prospects of recovery.

The provisions made / reversed during the year are charged to the statement of comprehensive income and accumulated provision is netted off against loans and advances. Loans and advances are written off when there is no realistic prospect of recovery or when the regulation requires.

In determining the potential loss in specific loans, groups of loans, or in the aggregate loan portfolio, all relevant factors are considered including, but not limited to current economic conditions, historical loss experience, delinquency trends, the effectiveness of the Bank's lending policies and collection procedures, and the timelines and accuracy of its loan review function.

The Bank determines provisions against Islamic financing and related assets in accordance with the applicable regulations.

4.4 Property and equipment

Tangible operating assets - owned

Property and equipment are stated at cost or revalued amounts less accumulated depreciation and accumulated impairment losses thereon. Cost includes expenditure that is directly attributable to the acquisition of fixed assets. Furniture and fixtures, computer equipment and office equipment are stated at revalued amounts less accumulated depreciation.

MIN

Subsequent costs are included in the asset's carrying amount or are recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the bank and the cost of the item can be measured reliably. All other repairs and maintenance expenditures are charged to statement of comprehensive income during the financial period in which they are incurred.

Surplus arising on revaluation is credited to the 'revaluation reserve' account (net of deferred tax) whereas deficit (if any) is adjusted against the balance in the above-mentioned surplus account. The revaluation is carried out with sufficient regularity to ensure that the carrying amount does not differ materially form that which would have been determined using fair value at the balance sheet date.

Surplus on revaluation of fixed assets (net of deferred tax) is transferred to other comprehensive income to the extent of incremental depreciation charged on related assets.

Land is not depreciated. Depreciation on all other fixed assets is calculated using the straight line method to allocate their depreciable cost or revalued amount to their residual values over their estimated useful lives. The residual values and useful lives of fixed assets are reviewed, and adjusted (if appropriate) at each balance sheet date.

Net gains and losses on disposal or derecognition of fixed assets are included in statement of comprehensive income currently.

Leased

Fixed assets held under finance lease are stated at the lower of fair value of asset and present value of minimum lease payments at the inception of lease, less accumulated depreciation. Financial charges are allocated over the period of lease term so as to provide a constant period rate of financial charge on the outstanding liability. Depreciation is charged on the basis similar to owned assets.

Intangible operating assets

Intangibles are stated at cost less accumulated amortization and accumulated impairment losses thereon. Computer software are capitalized on the basis of costs incurred to acquire and bring to use the specific software. Subsequent expenditure on software asset is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

These costs are amortized over their useful lives using the straight line method from the date it is available for use since this most closely reflects the pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life of software is three years. Amortization methods, useful lives and residual values are reassessed at each financial year end and adjusted, if appropriate.

Impairment of non-financial assets

The carrying amounts of the bank's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

OTP

4.5 Taxation

Income tax expense comprises of current and deferred tax. Income tax expense is recognized in the statement of comprehensive income except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

Current

Current tax is the expected tax payable or receivable on the taxable income for the year (using tax rates enacted or substantively enacted at the balance sheet date), and any adjustment to tax payable in respect of previous years.

Deferred

Deferred tax is provided for using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized on temporary differences relating to: (i) the initial recognition of goodwill; (ii) the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits; and (iii) differences relating to investments in subsidiaries to the extent that they probably will not reverse in the foreseeable future.

Deferred tax is measured at tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have ben enacted or substantively enacted by the reporting date.

As deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

4.6 Employee compensation

Short-term employee benefits are measured on an undiscounted basis and are expensed at the related service is provided.

4.7 Foreign currency transactions

Transactions in foreign currencies are translated to Afghani at exchange rate prevailing at the date of transaction.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to Afghani at the exchange rate prevailing at that reporting date. Foreign currency differences arising on retranslation are recognized in statement of comprehensive income.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of transaction. Non-monetary items measured at fair value in a foreign currency are translated using exchange rates at the date when the fair value was determined.

and

4.8 Revenue recognition

Mark-up /interest /return on advances and investments is recognized on accrual basis, except in case of advances classified as doubtful or loss under the credit regulations on which mark - up is recognized on receipt basis. Mark-up /interest /return on rescheduled /restructured loans and advances and investments is recognized as permitted by DAB.

The rentals from ijarah are recognized as income over the term of the contract net of depreciation expense relating to the ijarah assets.

Income from murabaha is accounted for on a time proportionate basis over the period of murabaha transaction.

Gain or loss on sale of investments are recognized in statement of comprehensive income in the year in which these arise.

As per "Asset Classification and Provisioning Regulation (2017)" issued by DAB, accrued interest is reversed on the loans and advances that are classified as doubtful or loss status. Thereafter, interest from such loans and advances is recognized on receipt basis.

Interest income and expense are recognized in the statement of comprehensive income using the effective interest method. The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset or financial liability.

When calculating the effective interest rate, the bank estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses. The calculation includes all fee paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

Fee and commission

Fees and commission income includes account servicing fees and sales commissions and are recognized as the related services are performed.

4.9 Lease payments

Payments under operating leases are recognized in statement of comprehensive income on straight line basis over the term of the lease. Lease incentives are recognized as an integral part of the total lease expense, over the term of the lease.

4.10 Provisions

Provisions for restructuring costs and legal claims are recognized when:

- a) the bank has present legal or constructive obligation as a result of past events;
- b) it is more likely than not that an outflow of resources will be required to settle the obligation; and
- c) the amount has been reliably estimated.

CAPO

The Bank, in the ordinary course of business, issues letters of credit, acceptances, guarantees, bid bonds, performance bonds etc. The commission against such contracts is recognized in the profit and loss account under fee and commission income over the period of contracts. The Bank's liability under such contracts is measured at the higher of the amount representing unearned commission income at the reporting date and the best estimate of the amount expected to settle any financial obligation arising under such contracts.

4.11 Off-setting

Financial assets and financial liabilities are set off and the net amount presented in the statement of financial position when, and only when, the bank has a legal right to set off the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously. Income and expense items of such assets and liabilities are also off - set and the net amount is reported in the financial statements.

4.12 Dividend and appropriations to reserves

Dividends and appropriations to reserves are recognized in the year in which these are approved, except appropriations required by the law which are recorded in the period to which they pertain.

- 9.1 There were no capitalized borrowing costs related to the acquisition of property and equipment during the year (2016: nil).
- 9.2 The Bank's land and building were revalued by an independent accredited professional valuer from May 28, 2012 to July 29, 2012. The revaluation resulted in a net surplus of Afs 1,210 million over the book value. Da Afghanistan Bank approved 70% of this surplus on July 21, 2012 which aggregates to Afs 847.22 million. Moreover, furniture and fixtures, computer equipment and office equipment were also revalued by two independent valuers on 31 December 2012. The valuation performed by the valuers was based on active market prices after adjusting for nature, and/or condition of the assets. This revaluation resulted in a net surplus of Afs 29.395 million over the book value. The movement in surplus on revaluation is given in note 14 to the financial statements.
- 9.3 The gross carrying amount of fully depreciated property and equipment still in use are as follows:

2017	2016
Afs '000'	
58,428	55,732
90,689	84,421

The carrying values approximate fair values as mostly the assets and liabilities have short maturities and are expected to be recovered/settled at their carrying values.

26 FINANCIAL RISK MANAGEMENT

26.1 Introduction and overview

The Bank has exposure to the following risks from its use of financial instruments:

- a) credit risks
- b) liquidity risks
- c) market risks
- d) operational risks

This note presents information about Bank's exposure to each of the above risks, the Bank's objectives, policies and processes for measuring and managing risk, and the Bank's management of capital.

Risk management framework

The Board of Supervisor has overall responsibility for the establishment and oversight of the Bank's risk management framework. The Board has established the Management Board, Risk Management committee and Credit Committee which are responsible for developing and monitoring Bank's risk management policies in their specified areas. All committees have both executive and non-executive members and report regularly to the Board of Supervisors on their activities.

The Board's Audit and Risk Committees are responsible for monitoring compliance with the Bank's risk management policies and procedures, and for reviewing the adequacy of the risk management framework in relation to the risks faced by the Bank. The Audit Committee is assisted in these functions by the Internal Audit and Compliance department whereas Risk Committee is provided frequent feedback by Risk Department.

a) Credit risk

Credit risk is the risk of financial loss to the Bank if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Bank's loans and advances to customers and placements with other banks. For risk management reporting purposes, the Bank considers and consolidates all elements of credit risk exposure.

Management of credit risk

The Bank has both Board of Management and Board of Supervisors level Credit Committees to mitigate the credit risks. Credit department reporting to the Credit Committee is responsible for managing the Bank's credit risk while the Board is responsible for oversight of same. The credit department is headed by Chief Credit Officer (CCO). Credit officer along with credit department staff look after credit risk matters and conduct portfolio analysis for managing credit risk.

The Bank has established and maintained a sound loan portfolio in terms of well-defined credit policy approved by the Board. The credit evaluation system comprises of well designed credit appraisal, sanctioning and review procedures for the purposes of emphasizing prudence in lending activities and ensuring the high quality of asset portfolio.

The amount of credit risk is represented by the carrying amounts of the assets on the balance sheet date. Exposure to credit risk is managed through regular analysis of borrower to met interest and capital repayment obligations and by changing their lending limits where appropriate. Exposure to credit risk is also managed against personal guarantee of the borrower and mortgage of immoveable property dully registered with the court of law and hypothecation over stock dully verified by the Bank's Credit Officer on monthly basis.

Exposure to credit risk

The Bank's maximum exposure to credit risk is the carrying amount of financial assets at the reporting date, as summarized below:

	2017	2016
	Afs '0	00'
Classes of financial assets		
Cash and balances with central bank	4,342,730	4,577,358
Balances with other banks	1,910,124	1,346,359
Investments	897,296	1,293,680
Loans and advances to customers	7,432,069	6,896,571
Other assets	2,073,362	1,763,856
Total carrying amounts	16,655,581	15,877,825

As at balance sheet date, all the loan portfolio of the Bank is recoverable and all the assets which are past due are provided for as per DAB guidelines.

In addition to the above, the Bank has issued financial guarantees' and letter of credits contracts for which the maximum amount payable by the Bank assuming all guarantees /letter of credits (less margin) are called on, is AFN 7,211.8 million (2016: Afs. 7,882.68 million).

The Bank's management considers that all the above financial assets that are not impaired or past due for the reporting dates under review are of good credit quality. The credit risk for cash and balances with central bank, balances with other banks, investments and other assets are considered negligible.

Allowances for impairment

The Bank establishes an allowance for impairment losses on assets carried at amortized cost that represents its estimate of incurred losses in its loan portfolio. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loan loss allowance established for the groups of homogeneous assets in respect of losses that have been incurred but have not been identified on loans that are considered individually insignificant as well as individually significant exposures that were subject to individual assessment for impairment but not found to be individually impaired.

Write-off policy

The Bank writes off loans or advances and any related allowances for impairment losses, when the loans are outstanding for more than 481 days, as per DAB regulation. This determination is reached after considering information such as the occurrence of significant changes in the borrower's financial position or that proceeds from collateral will not be sufficient to pay back the entire exposure. Before allowing to written off, it is ensured that all possible avenues of recovery, inclusive of legal action are exhausted.

The Bank holds collateral against loans and advances in the form of property documents, pledge of stocks and scratch cards, assignment of receivables and guarantees.

Settlement risk

The Bank's activities may give rise to risk at the time of settlement of transactions and trades. Settlement risk is the risk of loss due to failure of an entity to honour its obligation to deliver cash, other assets as contractually agreed.

87A-

Concentration of credit risks by industry

The Bank monitors concentrations of credit risk by industry. An analysis of concentrations of credit risk of loans and advances to customers at reporting date is as follows:

		2017	2016
	Note	Afs '0	00'
Carrying amount	8	8,066,291	7,217,721
Concentration by sector			
Construction		2,404,370	1,169,583
Communication			1,959,228
Services		2,186,220	1,172,503
Commercial/ trading		2,108,160	1,572,872
Manufacturing		184,174	70,736
Others		1,183,368	1,272,799
		8,066,291	7,217,721

b) Liquidity risk

Liquidity risk is the risk that the Bank will encounter difficulty in meeting obligations from its financial liabilities that are settled by delivering cash or another financial asset.

Management of liquidity risk

liquidity scenarios. The Bank's management is responsible for the implementation of sound policies and procedures keeping in view the strategic direction and risk appetite unexpected problem. valued business opportunities. For day to day liquidity risk management integration of liquidity scenario will ensure that the Bank is best prepared to respond to an flow to meet possible withdrawal of deposits, other commitment or challenges associated with sudden changes in market conditions, whist enabling the Bank to pursue specified by the Board. Asset & Liability Committee (ALCO) is entrusted with the responsibility of managing the mismatch in maturities to ensure sufficient available cash The Board ensures that the Bank has necessary tools and framework to cater the requirements of liquidity tisk management and the Bank is capable to confronting uneven

repayable on demand. For day to day fiquidity risk management, the management relies on several liquidity scenarios to ensure that the Bank is best prepared to respond to any unexpected problem. The Bank relies on deposits from customers as its primary source of funding. Deposits from customers generally have shorter maturines and large proportion of them are

Exposure to liquidity risk

as including cash and cash equivalent less any deposits from banks. A similar, but not identical, calculation is used to measure the Bank's compliance with the liquidity limit established by the Bank's Regulator (Da Afghanistan Bank). Detail of the reported Bank ratio of net liquid assets to deposits from customers at the reporting date and during The key measure used by the Bank for managing liquidity risk is the ratio of net liquidity assets to deposits from customers. For this purpose net liquid assets are considered the reporting period was as follows:

The above table shows the undescounted eash flows on the Bank's financial liabilities on the basis of their earliest possible contractual maturity. The gross nominal out flow disclosed in the above table is the contractual, undescounted cash flow on the financial liability.

c) Market risk

Market risk is the risk that changes in market prices, such as interest rate, equity prices, foreign exchange rates and credit spreads (not relating to changes in the obligor's/ issuer's credit standing) will affect the Bank's income or the value of its holding of financial instruments. The objective of market tisk management is to manage and control market risk exposures with in acceptable parameters, while optimizing the return on risk.

Management of market risks

Overall authority for market risk is vested in Assets and Liability Committee (ALCO). The Bank's ALCO is responsible for the development of detailed risk management policies and day to day review of their implementation. Risk management department scope covers the market risk identification, evaluation and reporting back with its recommendation to the management.

Exposure to interest rate risk

interest rates. Interest rate risk managed principally through monitoring interest rate gaps and by having pre-approved limits for re-pricing bands. ALCO is the monitoring body for compliance with these limits and is assisted by Risk Management in its day to day monitoring activities. A summary of the Bank's interest rate gap position on non-trading portfolio is as follows: The risk to which Banks' portfolios are exposed is the risk of loss from fluctuations in the future flows or fair values of financial instrument because of change in market

Sensitivity analysis

USD

A 10% strengthening of the Afghani, as indicated below, against the USD and EURO at December 31, 2017 would hive increased (decreased) equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Bank considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables, in particular interest rates, remain constant.

Profit or loss
703 TO SE
Equity Pr (47,162)

A 10% weakening of the Afghani against the above currencies at December 31, 2017 would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

d) Operational risk

USD

analequate or failed internal processes, people and system or from external events. With the evolution of Operations Risk Management into a separate distinct discipline, the Bank's strategy is to further strengthen its risk management system along new industry standards. Accordingly the Bank has set up a separate Operational Risk Management The Bank currently uses Basic Indicator Approach to Operational Risk for regulatory capital calculations. We define the operational risk as the risk of loss resulting from function within Risk Management department. Bank's operational risk management process involves a structured and uniform approach across the Bank. It includes risk identification and assessments, the monitoring of Key Risk Indicators and Risk Control Self-Assessment activities for key operational risks

27 CAPITAL MANAGEMENT

Regulatory capital

The Banks' regulator Du Afghanistan Bank sets and monitors capital requirements for the Bank. The capital adequacy of the Bank is assessed in two tiers as per regulations of the Da Afghanistan Bank.

- Tier 1 or core capital, consisting of the highest quality capital elements that fully meet all the essential characteristics of capital; to be 6% of risk weighted assets.
- Tier 2 or supplementary capital, which includes other instruments which, to a varying degree, fall short of the quality of Tier 1 capital, but nonetheless contribute to the overall strength of a bank as a going concern.
- Regulatory capital is the sum of Tier 1 and Tier 2 capital. Besides, Tier 2 capital cannot exceed from total
 amount of Tier 1 capital. The Bank complies with these regulations.

The Bank's regulatory capital position at December 31, 2017 was as follows:

2017	2016
Afs 100	0'
2,207,290	2,123,152
8,022	11,429
